

## CHD-210 : Educating Exceptional Children

This course explores the many different types of exceptionalities found in young children. Topics include speech, language, hearing and visual impairments; gifted and talented children; mental retardation; emotional, behavioral, and neurological handicaps. Upon completion, students should be able to identify appropriate strategies for working with young exceptional children. This is a CORE (required) course.

**Credits** 3

**Prerequisites**

CHD-201 Child Growth and Development Principles
